

Locking Peg Hook

Unlocked Position

Unlocked Position

The Locking Peg Hook allows you to openly display your high-shrink merchandise with protection of the most secure hook on the market. Customers will have full access to examine the merchandise but cannot remove the product from the hook. The Locking Peg Hook locks securely to a traditional corrugated or metal pegboard. The S3 key is required to unlock the front and back of the Locking Peg Hook.

KEY FEATURES:

- Hook lock securely to traditional corrugated or metal pegboard
- Locking merchandise rod prevents unauthorized product removal
- Convenient tag holder for pricing labels
- Traditional length available in: 7", 9", or 11"
- Metal length available in: 9"

SUGGESTED APPLICATIONS:

Personal electronics, memory cards, family planning, electric razors, cameras, knives, ink cartridges, pre-paid phones, all clamshell and blister packaged merchandise and more!
